Edith-Stein-Schule

📍 Darmstadt

- Major: Biology, Mathematics
- Grade: 1.3 (GPA: 3.7)

## PROFESSIONAL EXPERIENCE

2016-01  
|  
present

### Undergraduate Research Assistant

Work unit for differential psychology and psychological diagnostics

📍 Frankfurt am Main

- Co-facilitated a seminar on classical test theory and questionnaire construction techniques
- Assisted with data analysis in R (item analysis and exploratory factor analysis)
- Participated in sessions, answered questions and supported students in developing their own psychological tests
- Wrote two tutorial scripts in RMarkdown for item analysis and exploratory factor analysis, published on [pandaR](#) (open R resource platform) as a cheatsheet for students.

2014-08  
|  
present

### Undergraduate Research Assistant

Work unit for educational psychology with a focus on counseling, diagnosis, and evaluation.

📍 Frankfurt am Main

- Collaborated in the [DigiTeLL-Partnership Project AKGU](#), aimed to advance the KAT-HS software, which was developed for competency-oriented adaptive exams in the university. Implemented an exam review feature (via RMarkdown) as well as new item formats
- Significantly contributed to the development of the [IACAT](#) conference booklet
- Supported the lecture by preparing and editing slides as well as content-related aspects.

## SKILLS

### Language

**German**  
Native

**English**  
Fully Professional

**French**  
Elementary Proficiency

### Programming

**RMarkdown/Quarto**  
Reports in several Projects

**R**  
Data Analysis, -Workflow,  
-Management, -Visualization

**Git**  
Knowledge of Git Workflow

**Python**  
Beginner Knowledge

## INTERESTS

**Open Science:** Reproducible Analysis  
Pipelines and Reports, Data Management,  
FAIR data  
**Methods:** Measurement and Psychometrics  
**Clinical Psychology:** Transdiagnostic  
Psychopathology

Made with the R package [pagedown](#).  
Last updated on 2023-02-02

2019-09  
|  
2020-09

## Voluntary Social Year

Kindertagesstätte Papillon

📍 Darmstadt

- Took an active role in the daily care and supervision of children aged 1 to 3 years old as part of a small team
- Participated in the planning and organization of activities in the nursery group, communication with the parents of the children, and contributed to team meetings and the overall operation of the daycare center.
